

The instincts of neuters probably same
with those of females ^{of same species}, and recently

165 There are in these Bees called consorts i Hens (2)

179 Seed of Clover Corps almost destroyed & Apims

192 Cucumbers not injured & insect in England but much in America

230 on ant-hill in subterranean - 1386 - 390

203 Cases of fresh fruit in England & America injured & insect, so change in that

203 - he clowns destroyed & insect in America & not Peak - selection & act on a hope

357 good relation (L) humors with long onipositor laying eggs in lanes in fir-cone

371 Female (L) ant fruit takes charge of nest (but I presume is never soldier-ee)

374 Mother Wasps, select in nest take charge of young

380 Humble Bees (2)

382 Case of season in (L) bees

390 When insects are fed on one sort of plant with fire rather than change (2)

435 Ant-hill & fly (L) during same sort of trap for catching prey.

439, 464 (L) Reginald (L) in tanks 474

478 Caterpillars social (L) and stages remarkable fact

492 - Nurses & work making Bees - from so seats little Honey - (Ant which seats small juice in West words

504 (L) Bees nothing particular for me in the tank
